

Project Exam Week 2

Paper Prototype

The prototype (figure 1.1) of the page is an easy and simple way to display how the site will work. Errors will be displayed in red (figure 1.2) if there is any.

It will be easy for other users to test it, and comments any bad or good things about it. Since this is a prototype, any flaws will be easy to fix. It also helps detect the response from the test-person when he clicks a button, if it is confusing or easy to get by.
